webmaster@aspe-atlanta.com

**JOHN ROYDS, PE,**  
PRESIDENT

Hello ASPE Atlanta.

Thanks to all who attended the February dinner meeting, the Atlanta Chapter appreciates your support. Thank you to John Campbell for a very interesting presentation on petroleum storage tanks. We have still avoided the warning from Jim Allen that we may be seeing him in his Speedo, testing Low Flow Showerheads and User Perception.

Please mark your calendar and plan to attend the next diner meeting at Villa Christina on March 22. Currently scheduled is discussion on Turner Field Plumbing. Stay tuned for details. Look for your email invitation in your email inbox. Reminder if you register for a dinner meeting through Cvent and have to cancel, you can do so through the Cvent system. Also, if you cannot attend a meeting and you do not want to receive those pesky email reminders every three days, you can simply open the email and check the red 'X' beside the NO on the Cvent invitation.

The Certified in Plumbing Design (CPD) Exam test dates are April 15th or 16th, 2011 at various testing sites. See <http://aspe.org/CPDCertification> for more information. The deadline to register is March 18, 2011. Starting March 23, ASPE is offering a "<http://www.aspe.org/CPDReviewWebinar>" four-part webinar series to help people study for the 2011 CPD Exam. Those who sign up for the entire series will receive a free, brand-new CPD Review Manual. If you are a current ASPE member of the Atlanta Chapter in good standing and you pass the CPD exam, the Atlanta Chapter will reimburse your CPD exam fees.

The Atlanta Chapter has heard your cries. As you all know the temperatures for the June 2010 golf outing were very, very hot. So the Atlanta Chapter is going to switch the golf outing and the product show. This will move the golf outing to September and into hopefully some cooler temperatures and move the product show to June. In order to do this and due to the tough economic times, the board does not feel it will be fair to hold a product show in June 2011 since we had one in November of 2010. Therefore to make the switch, the product show will be postponed in 2011 and the next Atlanta Chapter product show will be in June of 2012. The 2011 golf outing will be sometime this fall. Stay tuned for further information and upcoming dates.

World Plumbing Day is March 11 (not to be confused with World Toilet Day and the Big Squat). Established last year by the World Plumbing Council, "<http://www.worldplumbingday.org/>" World Plumbing Day is dedicated to helping the general public better understand the vital role the plumbing industry plays in protecting public health and safety, the extent to which it helps limit mankind's environmental footprint, and other important work performed by contractors, inspectors, installers, engineers, and manufacturers. See <http://www.worldplumbingday.org/> for more information. Please feel free to contact me or any of the Atlanta Chapter board members with questions or comments.

**Milestone dates:**

- March 22, 2011 – March Dinner Meeting at Villa Christina Restaurant – Turner Field Plumbing
- April 26 – April Dinner Meeting at Villa Christina Restaurant – Mythbusters – Special Plumbing Edition
- May 24, 2011 – May Dinner Meeting at Villa Christina Restaurant - 2011/2012 Chapter Officer Elections & Innovation of the Year Award
- Fall 2011 - Atlanta Chapter Golf Outing – Coming to course near you.
- October 27-30, 2011 – ASPE Technical Symposium – Orlando, Florida

**CHRISTOPHER ROHLING, CPD**  
VP MEMBERSHIP

Spring is just around the corner. The weather is feeling wonderful and hopefully each of you has been able to enjoy it. This is the time of year that our industry starts to get into full swing. Construction is ramping up and designs are more critical today than ever. I have heard that 3D designs are starting to become more popular and more projects are moving that way. Make sure to check with your manufacturers of choice. Many have invested huge resources in providing online REVIT compatible files and these files can really help you start your 3D design more effectively and easily. Now having seen 3D design, I would say anything to help is a move in the right direction. Good luck designing!

ASPE is enforcing their policy on membership follow up. Please be patient with our volunteer staff and Board members, who will be making calls to see if you are planning on renewing. For every member whose membership is expiring at the end of the month, our Chapter is sending an email to the last known address and then following up with a phone call. I understand that many of you may have renewed prior to this phone call, but please understand that the Atlanta Chapter only receives membership reports once a month. Our information is only current one day a month, please be patient with our staff.

If you are receiving this newsletter and have previously been a member and let your membership lapse, please rejoin. We would love for the Atlanta Chapter to strengthen itself and move back to third place in

total membership.

I wanted to put this in my article again this month, just to remind everyone how important ASPE is. A common question about membership is, "What do you get as an ASPE member". Here are just a few of the benefits:

- ASPE Design Handbook each year (or CD)
- PS&D Magazine subscription
- ASPE Society Reports
- Members Only ASPEnet Access (Data book chapters online)
- Publication and Education Program Discounts
- Access to the ASPE Convention and Technical Symposium
- Ability to earn CEU credits at every meeting
- Networking opportunities locally and internationally
- Vendors also receive their booth for the Atlanta Technical Symposium for a \$200 discount

Our next event is the chapter meeting which will be held on March 22. We all hope to see you at Villa Christina.

Once again I am making a plea to our membership. I need your help to start growing our membership and retaining all of us. We have had a few members step forward in the past few weeks to join our Society. Thank you for considering and joining.

I am pleased to announce that our newest members this month are Matthew Harrison (Newcomb and Boyd) and Robert Davis (Heatlink). We appreciate you joining and look forward to seeing you at the next meeting.

\*\*\*Please be aware that ASPE has a policy that could help members that have been directly affected by the current economic situation. If you have lost your job, then you are eligible to receive three months membership at no cost. This can be renewed four times for a maximum of one year. As soon as you become employed then we simply move your membership back to its current level. If you have been affected please contact me directly and I can help get you the correct forms.\*\*\*

I am always open to new ideas on how to increase participation in the Atlanta Chapter. If you have new ideas in regards to membership or making our local chapter better, please do not hesitate to contact me at 770-715-9415 or at [rohlince@watts.com](mailto:rohlince@watts.com).

**STEVE E. MASTLEY, C.P.D.**  
VP LEGISLATIVE

Hello members. The month of March always has its surprises as far as the weather is concerned. So many decisions. Do I plant my garden now in the hopes that I will be the first one on the block to have the first large, ripe, home grown tomato and thus secure bragging rights for all of 2011 or wait until Good Friday to plant and be spared from the eminent freezing night of cold weather that March is sure to bring. One sure bet is that this is a great month to fly a kite.

Speaking of going to fly a kite, the 2011 General Assembly reached the halfway point in the legislative session last week on February 25th. The Legislature will be in session until March 7th, then a couple of days prior to March 17th which is the 30th day of the 2011 session. As Georgia law dictates the 30th day of the Legislative session marks the deadline for all bills to be passed in their House of Origin. Bills not passed by that date will be carried over to the 2012 Legislative Session.

A couple of bills that are currently being debated are; Senate Bill 27 – Georgia Public Works and Contractor Protection Act. This bill relates to security and immigration compliance dealing with employer verification of employee eligibility. The second, House Bill 57 – Installation of Water Treatment Equipment Exempt from License Requirements. This bill relates to contractors to provide an exemption form licensing for persons installing residential water treatment equipment.

Information related to these bills and other pending legislation and the General Assembly is available at [www.legis.ga.gov](http://www.legis.ga.gov).

Mark your calendars and bring a coworker for our monthly membership meeting on Tuesday, March 22, 2011.

I am rebuilding my pontoon boat. It has been in the works for the past year and a half. Tore it down to just the ribs and pontoons, and have built it back to one sweet boat. I have been hauling it from the storage yard to my house, every chance I get to work on it. This past weekend I took advantage of the warming temperatures to start the wiring. I am not a little man, but somehow I managed to crawl up into my console to start the wiring brain work, when I hear my "borrowing" neighbor Bob hail me. "Hey Noah, is it gonna rain?" Oh, great, I think as I try to connect a heat shrink fitting into the negative side of the navigation light switch. Since it took me an hour to squeeze into this console, I was not really in the mood for Bob's witty banter, besides he probably wanted to borrow something. I yelled back, "If it does, you are gonna drown brother!" He laughed his nervous "I want to borrow something" laugh, and I thought about sending him into my garage to look for the red handled door stretcher. I should never have let him know I use to be a contractor, but every time I opened my garage he was there admiring the tools I had amassed over the years. And every time he borrowed one of the tools, Ol' Jimmy not only ended up having to show him how to use it, but most times I got roped into doing the work for him. Then I hear him say, "I just cut my gas line, what should I do?"

**JIM ALLEN, CPD, LEED® AP**  
VP TECHNICAL

Inhale deeply and light up a cigar, I thought. I yelled something like "You did WHAT you crazy elbow?" I always end up calling him some kind of body part after every episode with him. Today, I just started off with it. "First call the gas company, and second it's gonna take me a couple of minutes to crawl out of this console, so just stand still", I say. We then make our way down to his house, and sure enough he has cut his gas line about 4 feet upstream of the regulator and meter. I could smell gas, but noticed that at least it was not a high pressure line. I asked Bob if he had any screens, and he went to look. I remembered a seminar I took from Columbia Gas Company, where they showed that screens are flame arrestors. The little screen in your gas can for your lawn mower is not there for keeping debris out of your gas tanks, but rather to keep a flame from back feeding into your gas can.

Bob came back with balloons..."Will these work," he asked? I said, "Sure fill a couple up, while I go get some screen." By the time I came back from my house Bob had filled up 4 balloons. Hilarious. We got the screen secured on the cut piping and sat and waited for Atlanta Gas Light. All ended well, but I still have to get back into my console and finish that wiring job. Plumbing just keeps interrupting my life, but soon it will just be the big pool of water known as Lake Lanier, which will be a welcome interruption. Speaking of Lanier, have y'all been saving any water for all those people in Alabama and Florida? How have you been doing it? This month we will be hearing from Mr. Paul Conrad with Mansfield Plumbing Products, LLC and he will be giving us a presentation on "Water Sense" and how we can help all those poor unfortunate souls downstream of our beloved Georgia.

A big thank you goes out to John Campbell for last month's meeting on petroleum storage systems. Speaking of fuel storage systems, anybody have any ideas what kind of fun you can have with 4 balloons of natural gas that I borrowed?

## EDUCATION REPORT

On the fence about taking the CPD Exam? Fear not. ASPE is hosting a four-part webinar series to help you in your preparation to take this year's "https://aspe.org/CPDCertification" \t "\_blank" CPD exam, held April 15-16. These webinars are 1-hour long, and provide insight to the exam. All webinars conclude with sample problems where the presenter will walk you through each step. The webinars can be viewed and purchased individually, but you'll enhance your familiarity with the types of questions by signing up for the entire series. Don't miss this valuable opportunity to prepare yourself for the 100-question exam and assist with your studies. Registration closes at 5pm CT the day prior to each webinar session.

### Register today to enhance your status as a plumbing engineer and refresh your memory on:

- Gathering Information
- Domestic Water Systems
- Expansion and Contraction
- Sanitary Design

### Tentative outline of topics covered in each webinar:

Session 1	Session 2	Session 3	Session 4
Exam Summary	Sumps and Ejectors	Domestic Hot Water Systems	Fire Protection Systems
Gathering Information	Storm Water System	Backflow Prevention	Fuel Gas, Medical Gas
Sanitary Design	Site Drainage	Pumps	Specifications
	Domestic Water Systems	Expansion and Contraction	Construction Services
			Administration

All in all, if you want to enhance your studies, you cannot afford to miss the CPD Review webinar series. Sessions will be March 23, March 30, April 6 and April 13.

If you register for the entire series you'll receive the updated CPD Review Manual FREE!

	Members	Non-members
4-part series*	\$275	\$500
Individual webinar	\$75	\$135
	*Includes FREE CPD Review Manual	

To sign up go to <https://aspe.org/CPDReviewWebinar1>

### Certification by Member Requesting Compassion Dues Waiver

The undersigned certifies that all statements made herein are true and, if granted a deferment and waiver of the Society dues, agrees to abide by the conditions stated herein.

\_\_\_\_\_  
Signature of Member Date

### Certification of Chapter President (or, for at-large members, Society Vice-President, Membership)

The undersigned certifies that all statements made herein by the applicant are true and requests that the member be granted a deferment and waiver of the Society dues for the period stated herein.

\_\_\_\_\_  
Signature of Chapter President (Society Vice-President, Membership) Date

## COMPASSION WAIVER OF SOCIETY DUES POLICY

Any member of ASPE may request, through the individual's Chapter President or, for the at-large member, the Society's Vice-President, Membership, a Compassion Waiver of Dues. At the discretion of the Society's Board of Directors, a Compassion Waiver of Dues may be made available to any member of the Society who has been out of work for a period of three (3) months or more or has otherwise suffered a grievous reduction in income due to illness, disability or the like and is unable to pay the annual Society dues amount.

A Compassion Waiver of Dues will only be granted for a maximum of a three (3) month increment, with a maximum amount of four (4) waiver renewals permitted. Each Compassion Waiver of Dues request must be submitted on a Request for Dues Waiver form (see following page) and the form must be signed by the appropriate Chapter President (or Society Vice-President, Membership) for each dues waiver renewal request. It shall be the responsibility of the member and the Chapter President to immediately inform the Society's Membership Services Manager or Executive Director when the condition for which the Compassion Waiver of Dues has been granted ceases to exist.

The annual dues payment for a member granted a Compassion Waiver of Dues shall be deferred during the waiver period. Furthermore, the amount of annual dues that shall be considered outstanding and due by the member at the end of the waiver period shall be reduced by multiplying the annual dues amount that has been deferred by 1 minus the decimal percent calculated by dividing the number of months of the granted waiver period(s) by 12. Each member granted a Compassion Waiver of Dues shall: continue to enjoy all benefits of Society membership; retain the rights to his/her membership number; be retained on the Society's rolls with his/her original starting membership date.

During the period that a member has been granted the Compassion Waiver of Dues, the individual will not be eligible to receive any revised or new *Data Book* volumes, the member will not be included in the chapter Delegate count for the convention and, as there are no dues being paid, there will be no dues rebate to the chapter for that member.

## Sales/Marketing Opportunities For Manufacturers And Representatives And Engineers

THE ATLANTA CHAPTER BOARD IS ANNOUNCING FIVE DIFFERENT TYPES OF OPPORTUNITIES FOR REPS AND/OR MANUFACTURERS WANTING TO PROMOTE THEIR PRODUCT LINES:

- 1). **NEWSLETTER SPONSORSHIP:**  
**\$100; COMPANY LISTINGS APPEARS IN EACH OF 12 MONTHLY ISSUES.**
- 2). **NEWSLETTER INSERT:**  
**\$125 SINGLE PAGE INSERT APPEARS IN ONE (1) ISSUE.**
- 3). **MONTHLY MEETING TABLE TOP DISPLAY:**  
**\$100/MEETING**
- 4). **ASPE ATLANTA CHAPTER PRODUCT SHOW:**  
**\$500/BOOTH ASPE MEMBERS**  
**\$650/BOOTH NON-ASPE MEMBERS.**

## Meeting Times

FOURTH TUESDAY OF EACH MONTH  
September — May

- Social ----- 6-7 pm
- Dinner ----- 7-7:30 pm
- Business ----- 7:30-7:45 pm
- Program ----- 7:45-8:45 pm

## Dinner Prices

- Members with pre-registration ----- \$25
- Non members/members at the door ----- \$30

Make sure to check out  
this month's issue of  
**Plumbing Systems & Design  
Magazine.** For more information,

## directions

*Villa Christina* Restaurant at Perimeter Summit  
 4000 Summit Boulevard • Atlanta, GA 30319

**FROM GA 400:**

Take I-285 East to Ashford Dunwoody Road (Exit 29). Stay in the far right hand lane, which will put you onto Lake Hearn Drive. At first traffic light turn LEFT onto Parkside Place. Travel one block and turn RIGHT onto Perimeter Summit Drive (into the Perimeter Summit Complex). At the stop sign, turn LEFT onto Summit Boulevard. Villa Christina is the last building on the LEFT.

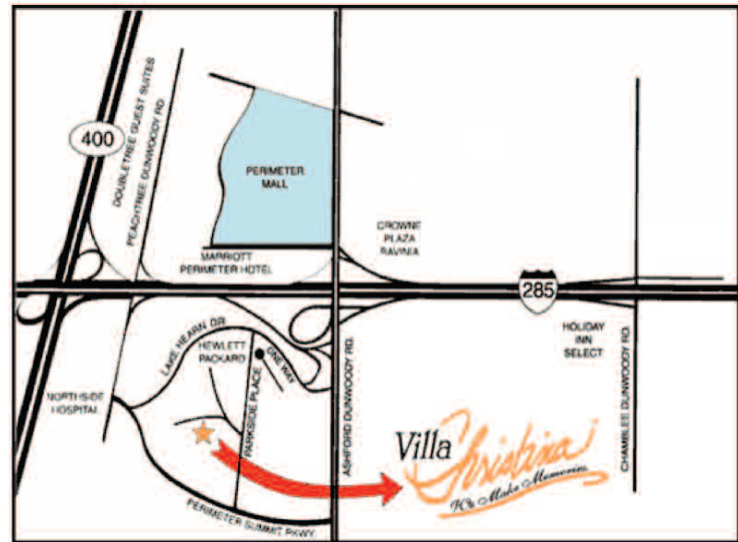

**FROM I-85 & I-285 (Spaghetti Junction):**

Take I-285 West to Ashford Ddunwoody Road (Exit 29) and turn LEFT. Crossover I-285. At the first traffic light and turn RIGHT onto Lake Hearn Drive. At next traffic light turn LEFT onto Parkside Place. Travel one block and turn RIGHT onto Perimeter Summit Drive (into the Perimeter Summit Complex). At the stop sign, turn LEFT onto Summit Boulevard. Villa Christina is the last building on the LEFT.

**COMPLIMENTARY VALET PARKING OR SELF PARKING IS AVAILABLE.**
